Gentlemen:

Do you have any book or books relative to commemorative coins of a later issue. I have recently become interested in collecting coins, and have all of the commemorative issues except the 1928 Hawaii-book. I am interested in finding out the amount issued of each particular half-dollar, for example; 28,142 Bennington in 1927, 3,500 Missouri (without star) in 1921. Can you supply me with this information? I want a later issue giving 1935 Boone, 1935 Connecticut, etc.

50000

Dear Sir:

There is no book issued that brings the commemorative coins up to date. Scott & Co, in their Standard Catalogue (price \$2.50 ) bring them up through the Hawaii half dollar. They are at work on a new edition that should be out in two months time, that will bring the series up to the time of going to press. For really up to date information you should subscribe to the " Numismatist " which is two dollars a year. For three dollars a year, you can belong to the Association and receive the Numismatist as well. An application for this I am enclosing.

I understand there have been struck five hundred and five thousands Daniel Boone half-dollar for 1935. I cannot say whether or not any more will be struck. I am inclined to think that that five thousand of these were of the old type and five hundred thousand of the new. I have not yet received any information as to how many Connecticut half dollars were struck

Very truly

Curator
